FOOD CHAIN
CONSULTING AND AUDITING

ANIMAL WELFARE COURSE

FCCA in conjunction with HSA has created a uniquely different one day practical animal welfare training course. The training is designed to be delivered in house for all red meat, poultry and fish species.

Each course is bespoke; tailored to your individual company's system, requirements and objectives. It translates theory into practice; showing how to make the best of current handling and stunning/ slaughter systems.

The objective is to increase welfare outcomes on site which in many cases also leads to increased product quality. While primarily aimed at key workers 'actually doing the job', the course has benefits for employees and management alike.

ABOUT US

- FCCA – Food Chain Consulting and Auditing. FCCA's expertise lies in fully understanding retailer demands and requirements for increased animal welfare and traceability on farm, in transit and at slaughter. FCCA provide training and consultancy to enable companies worldwide to achieve these standards.
- HSA - The Humane Slaughter Association (HSA) has been involved in promotion and provision of education and training on humane methods of livestock slaughter for many years. It has built an international reputation for being a reliable, knowledgeable and practical organisation, with a sound understanding of livestock and livestock handling.

PROGRAMME

THE 1 DAY COURSE, DELIVERED BY TWO TRAINERS IS MADE UP OF THE FOLLOWING:

PART I

Pre course questionnaire -to understand your systems and tailor the course

PART II

Observation – of key staff working practices

PART III

Theory - Animal welfare - Unlimited attendance – within reason!

PART IV

Practical demonstration - Animal handling and slaughter - 6 Person max.

PART V

Assessment – Practical, Oral or multiple choice

Participants are issued with a certificate of attendance and a statement about the individual's understanding of animal welfare in relation to their role at the company.

OTHER SERVICES

BY FCCA

Training for multi site/ multi level (farms/hatcheries/ catching teams) packages are available and can be discounted.

TESCO Pre audit consultancy work - the assessment of current performance against the TESCO standard and preparation work to meet TESCO standards.

Consultancy can be provided in conjunction with training; development of both people and systems. A continuous improvement report would be produced.
